Professional Summary

I am a 3rd year Information Technology student at Don Bosco Institute of Technology, Mumbai, specializing in cybersecurity and digital forensics with a keen interest in building scalable SaaS products. I explore ways to merge cybersecurity principles into innovative products to enhance efficiency, security, and user experience. With hands-on experience in large projects, I bring strong technical expertise, problem-solving skills, and a passion for transformative solutions.

Skills

Programming:

Python, R, JavaScript, Java, React.js, Django

Frameworks:

MERN Stack, Secure Cloud Applications, SaaS Development

Cybersecurity:

Cyber Threat Intelligence (CTI), Digital Forensics

Other:

Deep Learning, DevOps, Software Architecture

Work History

Intern - ARM Coaching

- Built features for a tournament management app using Flutter.
- Developed the frontend for the CSTennis Academy website.

AI & Deep Learning Intern

Arechive Academy

- Handwritten Digit Recognition project using neural networks.
- Built a model to classify handwritten data using given dataset; explored accuracy and optimization.

Technical Team Member

Computer Society of India, Mumbai

10/2023 – 10/2024

- Contributed to React.js development, DevOps, event management, and website deployment.

Education

Don Bosco Institute of Technology, Mumbai

06/2022 – Present

B.E. in Information Technology

Honors in Cybersecurity & Digital Forensics
GPA: 6.5

Jr. College (HSC)

2020 – 2022

Institution not explicitly specified

IES Manik Vidyamandir (ICSE)

Passed 2020

Percentage: 85.83%

Certifications

- Fortinet Network Security Expert Level 3: Certified Associate (02/2025)
- Zscaler Fundamentals of Cybersecurity (07/2024)
- React and Redux Certification (08/2024)
- Responsive Web Design (07/2024)
- Palo Alto Cybersecurity (10/2024)

Competitions & Achievements

- **Codeverse Hackathon:** Secured 3rd place out of 60+ teams; a rewarding experience in collaborative problem-solving and innovation.
- **InnoQuest:** Awarded 3rd prize for the 'Desktop App Development' category for a CRM project for a fitness studio.

Extra-curricular Information

- Passionate about merging cybersecurity principles with SaaS innovation to create reliable, scalable platforms.
- Active participant in hackathons and coding competitions.
- Strong team collaboration and project management skills.
- Participated in Chess and Table Tennis competitions.

Interests

Chess, Table Tennis, Badminton
